

**AMENDMENTS TO THE CLAIMS:**

The following listing of claims replaces all prior versions, and listings, of claims in the application. If any claims are designated "cancelled," please cancel such claims without prejudice.

**Listing of Claims:**

1.-44. (cancelled)

1                   45. (currently amended)     A method for killing and inhibiting  
2 dermatophytic fungi and bacteria responsible for ~~funga~~ skin infection and non-  
3 pathological body malodor comprising the steps of preparing a therapeutically effective  
4 amount of an anticholinergic quaternary amine compound and administering said  
5 anticholinergic quaternary amine compound to the skin surface of a human body so as  
6 to kill and inhibit fungi and bacteria.

1                   46. (original)     The method according to claim 45, further comprising  
2 administration of the anticholinergic quaternary amine (ACQA) compound as a  
3 formulation in conjunction with an excipient, base or support material, wherein the  
4 concentration of the anticholinergic quaternary amine compound in the formulation is in  
5 an amount of from about 0.0001% to about 20% w/w.

1                   47. (original)     The method according to claim 46, wherein the  
2 concentration of the anticholinergic quaternary amine compound in the formulation is in  
3 an amount of from about 0.001% to about 10% w/w.

1                   48. (original) The method according to claim 47, wherein the  
2 concentration of the anticholinergic quaternary amine compound in the formulation is in  
3 an amount of from about 0.05% to about 5% w/w.

1                   49. (original) The method according to claim 46, wherein the  
2 anticholinergic quaternary amine compound comprises glycopyrrolate.
